### Cultural operator(s)

Name and country	Megaron - The Athens Concert Hall Greece
Short description	<p>Founded in 1981, The Athens Concert Hall Organization is a non-profit-making organization, a creative arena for cultural and educational activities, an arts centre organized along contemporary lines to promote the role of culture in the community.</p> <p>We are committed to ensuring that all events staged at the Concert Hall are of the highest quality. The programmes consist largely but by no means exclusively of classical music and opera, complemented by more contemporary compositions, works from around the world, music by younger composers, Greek music of course, as well as dance, theatre, cinema and the visual arts. Through our themed series of events, known as Megaron Plus, and through the work of the Lilian Voudouri Music Library, as well as a wide range of other educational programmes and activities, we hope to provide a valuable service appealing to young people and audiences from outside the capital city. In this context we have also inaugurated the project “annexM”, which is a newly established center for fine arts, opening our doors to contemporary creation.</p>

## Proposed Creative Europe project

Field(s)	Classical music, opera, theatre and dance.
Description	We are very interested in collaborating in artistic projects that have to do with classical music, theater, opera and dance, which are our main fields of activity. In addition to the classical works that are at the heart of Megaron – The Athens Concert Hall activity, we are interested in opening up to contemporary creation, to new art forms, experimental and innovative, at artistic level, new technologies' level etc. For example, we recently hosted the 3d opera “Blank Out”, which can only be watched with special glasses. It was an opera for soprano, baritone, chorus, and 3D film, a high-tech spectacle using innovative techniques and electronic music so that image and physical presence are in perfect unison. We are also very interested in actions for people with special needs. Opening our doors to these audiences is one of our strategic goals. The variety of events that Megaron hosts is very wide and it's not possible to mention everything, but you can see our events <a href="#">here</a> . Our main concern regarding our cultural projects is their artistic value and the high quality.
