Proposed Creative Europe project – to which project are you looking for partners?

Sector or field	<i>Video</i>
Description or summary of the proposed project	<p><i>We make free videos based on the science of emotions that teach 5-10 year olds to recognise, accept, and use all of their emotions (at emotionathletes.org). A pilot project in Portugal is showing great results with 88% of children changing behavior: calmer, braver, and happier (see all details at emotionathletes.org/impact). You can see the trailer at www.emotionathletes.org/trailer and the first episode at www.emotionathletes.org/day1 . The programme works autonomously and can turn any caring adult into an effective teacher of emotional intelligence without previous reading or training.</i></p> <p><i>We now want to improve the series with computer-generated imagery instead of puppets to appeal to a larger audience. Thus we are looking for expertise in this area. Doing so, we will incorporate feedback and expertise from this pilot project and make the videos in other languages, especially English, German, French, Italian and Spanish (hence the countries in the list of partners).</i></p> <p><i>We also want to make a completely new series for teenagers conveying the same essential messages from the science of emotions. We are also looking for expertise in this area.</i></p>
Partners currently involved in the project	<i>None.</i>
