Sector or field	Live popular music
Description or summary of the proposed project	The " Rock mEU " project is dedicated to the advancement of the European popular music sector. The project's activities are concentrated on two core areas: equipping young musicians with the abilities and prospects they require to connect with new audiences, and fostering the musical literacy of young people from disadvantaged backgrounds. The objective of these capacity-building activities is to cultivate a comprehensive support system for young, aspiring musicians in Europe. The project's objective is to enhance the self-marketing and promotional abilities of these musicians, expand their reach, and cultivate an environment of mental well-being within this highly competitive field. Inclusive music activity addresses the need for enhanced music literacy and career pathways for young people from disadvantaged backgrounds across Europe. The project employs a hands-on approach, combining educational workshops with practical experience to empower disadvantaged youth and facilitate access to potential careers within the music industry. The project's objective is to cultivate a dynamic, inclusive, and future-proof European music ecosystem.
